

The trance of the **Fakir Orchestra**.

A stage group tailored to Franck Dadure, producer-musician oscillating between sweet madness and brilliant inspiration. Under the guise of this post-digital Fakir, Franck is developing an ultra-euphoric and unusual musical potion based on electrified Turkish clarinet, space guitar, Theremin-Eiffel Tower, senza-fuzz and other electro-acoustic house crafts. Sophisticated rhythms, orientalized melodies, digitized sound effects, free and creative improvisations, electro-jazz mutant flights of the Fakir flirt flamboyantly with an incandescent drum & bass. An elixir that explodes on stage with The FAKIR Orchestra 5tet: Amazing formation composed of two clarinets (Turkish and bass), guitar, double bass, drums, hypnotic trumpet, for a haunting music with an irresistible groove! The house of Radio France has appreciated this creative wealth by signing Franck for two albums (Melodies Lunatiques and Tako Mitsu) recorded in the studios of the Maison de la Radio.
